3. PHASE TACTICS DIRECTIVES

Powerplay Phase (Overs 1-6):

- Instruct openers to focus on clearing infield. Utilize Deepak Chahar to bowl full lengths early on.
- Target matching batsmen profiles against bowler movement patterns.

Middle Overs Phase (Overs 7-15):

- Apply a strict 'Spin-Choke' utilizing Jadeja and Santner/Theekshana. Keep boundary dimensions large.
- Rotate bowling overs to maintain matchup leverage against off-side hitters.

Death Overs Phase (Overs 16-20):

- Matheesha Pathirana to bowl wide yorkers at high pace exceeding 143km/h.
- MS Dhoni to manage field configurations directly from behind the stumps.
